

## RECURSOS – Despliegue Desarrollo

1. Google Cloud Platform (Console):

<https://console.cloud.google.com/>

2. Proyecto github principal:

[https://github.com/mirkorodriguez/DEEP-LEARNING\\_deployment.git](https://github.com/mirkorodriguez/DEEP-LEARNING_deployment.git)

3. Comandos para despliegue **Desarrollo (DEV)**:

[https://raw.githubusercontent.com/mirkorodriguez/DEEP-LEARNING\\_deployment/master/Scripts/02.Deployment-DEV.txt](https://raw.githubusercontent.com/mirkorodriguez/DEEP-LEARNING_deployment/master/Scripts/02.Deployment-DEV.txt)

4. Modelo Deep Learning de reconocimiento de flores construido en TensorFlow 2.0 y listo para despliegue (archivos **\*.pb** y **\*.h5**):
